

I am writing to let you know that I feel that lifting the important cross-ownership ban on the media will certainly NOT benefit or serve the public interest. Further media consolidation can only reduce the amount, quality and detail of journalism that reaches the public. It will also create conditions where it will potentially impose frightening blackouts and censorship on stories that go against the corporate media companies and their financial interests. Please do not lift the cross-ownership ban.

Thank you
Kristin Adolfson
